

## Financial Incentives Available for Facility Projects

If you are planning an office facility relocation or renovation project, you may be eligible for one or more, significant financial incentive programs that are currently available in the Province of Ontario. Funding is available for projects that reduce their typical use of energy and water, through the use of new technologies. To establish if your project would qualify – contact the offices of the McGregor Design Group.

It is important to remember that to qualify you must apply before your project commences.
